

Now that spring is upon us it is important that property owners and residents maintain the upkeep and overall appearance of their property. Front yards are especially important as far as high grass, garbage and debris. Upkeep of your yard not only compliments your property but your neighbors as well as the village as a whole. Within the upcoming weeks our Code Enforcement will be monitoring village properties to enforce our local laws especially pertaining to the above described. Any questions about our local laws can be answered by calling our Village Code Office at 518-943-6564. Please stay posted for possible new or ammended local laws pertaining primarily to property maintenance.
